## ABOUT

Full-Stack developer with **5+ years of commercial experience** and **2+ years of mentoring experience**. I create scalable web applications from idea to launch. Expert in React/Next.js ecosystem, React Native cross-platform development, and modern backend solutions with Node.js, NestJS, and PostgreSQL. I have experience in product development and commercial project delivery. Currently learning AI technologies and their integration with web applications.

## TECHNICAL SKILLS

### Frontend:

React/Next.js, React Native/Expo, TypeScript, Tailwind CSS, Vue.js/Quasar, JavaScript (ES6+), HTML5/CSS3, Capacitor, iOS/Android deployment

### Backend:

Node.js, NestJS, Prisma ORM, PostgreSQL/MySQL, Redis, Swagger

### DevOps & Tools:

Docker, AWS (S3, SES), CI/CD, Firebase, Analytics, i18n, PDF generation

### Soft Skills:

Team Leadership, Cross-functional Collaboration, Project Delivery, Problem Solving

## EXPERIENCE

### FULL-STACK DEVELOPER

2019 - PRESENT

### REMOTE

5+ YEARS

Delivered full-stack solutions for diverse clients including medical platforms, transportation services, and mobile applications.

- Built Ovogene medical platform supporting **10K+** users with multi-brand architecture and AWS integration
- Migrated multi-brand transportation apps (DriveMe, RentaBob, EDrivers) to Quasar Framework with Capacitor for cross-platform deployment
- Developed MijnZetel political voting app with real-time Firebase integration and React Native cross-platform support

Key Projects: Ovogene (2023-2025), MijnZetel (2024-2025), DriveMe/RentaBob/EDrivers (2021-2025), Dobbi (2021-2023), CharterTickets (2019-2021)

## EDUCATION

2018 - 2021

### ITSTEP ACADEMY

3 YEARS

Computer Academy - specialization in web development and programming fundamentals.

## PERSONAL INITIATIVES

2020 - 2024

### HACKATHONS & SIDE PROJECTS

Multiple Events

Active participant in hackathons and personal development projects.

- Won prize at hackathon by creating Google Chrome extension for cryptocurrency portfolio tracking
- Built extension using Covalent API to track coins across different blockchain networks
- Implemented real-time price monitoring and watchlist functionality
